PRO-ABORTION CHURCH WILL AMBUSH OPERATION RESCUE
Turf war to continue this Saturday

The Church of Euthanasia will challenge Operation Rescue demonstrators at a Boston abortion clinic this Saturday, between 8:00 and 10:00 AM. Several hundred pro-life activists are expected to converge on Preterm (1842 Beacon Street), where they will be ambushed by members of the Church of Euthanasia, a Boston-based religion which encourages voluntary population reduction through abortion, suicide, sex for pleasure, and radical vegetarianism.

Last Saturday, Church of Euthanasia members drove pro-lifers away from the Repro clinic with bizarre signs featuring such slogans as "FETUSES ARE FOR SCRAPING" and "EAT A QUEER FETUS FOR JESUS". Boston Operation Rescue director Bill Cotter appeared visibly shaken as Church founder Rev. Chris Korda served "fetus pâté" while member Vermin Supreme, clad in a Satan mask and wielding a megaphone, offered to "sacrifice a gerbil for the unborn."

According Rev. Korda, the pro-lifers have an Achilles heel: they are extremely susceptible to ridicule. "The one thing they can't stand is being made fun of," says Korda. "The pro-choice people take them seriously, and that's a mistake we don't make. They're trying to intimidate everyone with shock tactics and disgusting props, but we're not impressed. We can out-shock and out-disgust them any day. We're seizing the moral low ground right out from under them."

Operation Rescue has been quietly winning their war against abortion, and not only in Washington. Brookline clinic escorts report that pro-life activists are increasingly bold. They have been seen harassing motorists, chasing pedestrians down the street, and videotaping and photographing all clinic traffic, as well as grabbing women's arms and following them right up to the clinic doors in clear violation of state and federal law. The police ignore these incidents, said one escort, so long as activists don't attempt to enter the clinic.

The National Organization for Women (NOW) is also planning a counter-demonstration.

PRO-ABORTION CHURCH TARGETS "CRUSADERS FOR LIFE"

The Church of Euthanasia will challenge Our Lady's Crusaders For Life at a Boston abortion clinic this Tuesday, between 4:00 and 5:30 PM. The pro-life crusaders will be holding their weekly vigil outside Gynecare (177 Tremont Street), where they will be ambushed by members of the Church of Euthanasia, the Boston-based religion which encourages voluntary population reduction through abortion, suicide, sex for pleasure, and radical vegetarianism.

Tuesday's ambush is the latest in a series. On September 14, Church of Euthanasia members challenged approximately 200 pro-life demonstrators outside the Preterm clinic in Brookline. The Euthanasists unveiled bizarre signs featuring such slogans as "FETUSES ARE FOR SCRAPING", while they sang Monty Python's "Every Sperm is Sacred" and chanted "All we are saying...is fetus pâté."

A thirteen-foot tall banner that read "EAT A QUEER FETUS FOR JESUS" was also deployed. A week before, at Brookline's Repro clinic, Operation Rescue supporters appeared visibly shaken as Church member Vermin Supreme, clad in a Satan mask and wielding a megaphone, offered to "sacrifice a gerbil for the unborn."

The Euthanasists will turn up the volume this Tuesday, according to church founder Rev. Korda. "The people we're ambushing this time are professionals with long arrest records. They oppose abortion for the same reason they oppose contraception and sex-education: not because they care about the rights of fetuses, but because they're terrified of sexual pleasure. The Catholic Church was built on flagellation and sexual torture; this is what happens when humans try to deny the biological nature of life. Their priests advocate sexual self-erasure, and meanwhile they can't keep their hands off the altar boys. Then they blame the victims! It's absurd, and we're going to demonstrate the paradox very, very graphically. Some people are going to be deeply offended."

Frequently Asked Questions

1. What is the Church of Euthanasia?

The Church of Euthanasia is a non-profit educational foundation devoted to restoring balance between Humans and the remaining species on Earth. We believe this can only be accomplished by a massive *voluntary* population reduction, which will require a leap in Human consciousness to a new *species awareness*.

The Human population is increasing by one million every four days. This is a net increase of 95 million per year, the current population of Mexico. Even major wars or epidemics hardly dent this rate of growth, and modern wars also have tremendous environmental consequences. It is for these practical reasons, as well as moral ones, that we support only *voluntary* forms of population reduction.

The Church has only one commandment, and it is "Thou Shalt Not Procreate." In addition, we have four "pillars" or principles, which are Suicide, Abortion, Cannibalism and Sodomy.

Note that cannibalism is only required for those who insist on eating flesh, and is strictly limited to consumption of the *already dead*. Also note that sodomy is defined as any sexual act not intended for procreation: fellatio, cunnilingus, and anal sex are all forms of sodomy and are still illegal in many states.

2. How do I become a member?

If you choose to not procreate, you're a member already, but why not make it official? Membership includes a life-time subscription to the printed version of Snuff It, a 28-page e-sermon booklet, and a lovely embossed certificate suitable for framing, all for only \$10.

Bear in mind that we take our one commandment very seriously. Membership implies a lifetime vow to not procreate. Procreation is guaranteed excommunication. There are *no* exceptions; abortion will be required, period. Of course, such difficulties can be avoided by faithful adherence to the fourth pillar (sodomy).

3. Do I have to kill myself?

Of course you don't have to kill yourself! If you really want to, though, wait until *after* you've joined the Church. That way, you automatically become a saint, without any additional paperwork. Don't forget to leave a note thanking and/or blaming the Church, and feel free to will us your estate, if you have one.

4. I've already procreated. Can I still join?

Absolutely! So long as you don't have any *more*. We have a number of members with children, and we even have a member whose son joined too. What's done is done. What matters is your commitment *now*.

5. How can I help?

The most important way you can help is by not procreating. If you feel comfortable taking the lifetime vow, then you should consider officially joining the Church. It would also very helpful if you could manage to abstain from eating flesh.

If you like to write and have some "fire in the belly," we can always use guest sermons, articles, and letters to the editor.

We prefer submissions by e-mail (send to coe@netcom.com) or diskette (Word Perfect 5.1 or DOS text format) so we don't have to scan or type it in again. If you send a diskette, you might want to include hard copy also just in case we can't read it.

We also desperately need money. Propaganda campaigns are expensive! The Church is exempt from federal income tax under 501(a) and 501(c)(3), EIN 04-324-9910. Donations are tax-deductible.

Finally, you can help by spreading the word. Talk to people. Proselytize shamelessly. Ask us for flyers, or even better, make your own, and distribute them. Write a letter to the editor of your local paper. Get on the radio or TV. Be a nuisance. Cause trouble. Piss people off, especially your breeding friends. Carpe diem.

6. What's the best way for me to kill myself?

We recommend taking an overdose of sleeping pills and fastening a large plastic trash bag over your head. That way even if the dose isn't enough to kill you, or makes you throw up (a common problem), you still die of asphyxiation. This is by the way the official "Hemlock Society approved" method, and has proved to be very effective and painless. Use a rubber band to fasten the bag around your head. It's best to hold the bag open while you're falling asleep, so you can still breathe and don't panic. After you fall asleep, your grip loosens, the elastic tightens, and presto: you stop breathing. The only hard part is getting the pills (some folks just use the bag, but this is hard-core).

If you can't get sleeping pills, you could also try connecting a tube to the exhaust pipe of a car. Run the tube into the car by rolling down one window a bit, and be sure to use tape (duct tape would be good) to seal the space around the tube so there's no leakage. Start up the motor, turn on the radio, and sit back. This one is completely painless, and you will not wake up unless 1. you run out of gas (fill it up first) or 2. someone discovers you (the most common reason why this method doesn't work). It's best to drive somewhere far away from people, which, needless to say, is getting harder and harder to do.

7. Why haven't you killed yourself yet?

I just might. Believe me, I think about it every day. But maybe, just maybe, if enough people listen to what we're saying and stop procreating and consuming so much, we might be able to reduce the population and build a more compassionate, sustainable future. Then maybe I won't *need* to kill myself. That hope is the only

thing that keeps me alive; if it ever dies, I'll die with it, and you can have front row seats. The real question is how much of your *self* you are willing to sacrifice for the well-being of the remaining species on Earth, as well as future generations of Humans.

8. How many members are there?

The Church currently has hundreds of card-carrying members who've taken the vow, plus clergy, directors, and over a thousand "e-members" on the Internet. We have members as far away as Italy and Latvia, though the majority are in the USA.

9. Can I distribute or reprint Church propaganda?

Everything we publish is yours to use, subject to two conditions: we request that you include the author's name if specified, along with the Church's e-mail, world-wide web, and postal addresses, and if you're *reprinting* rather than quoting or excerpting for use in your own work, we request that you use the material *in its entirety*.

10. Where can I get EMERGENCY CONTRACEPTION?

The Office of Population Research at Princeton University maintains an emergency contraception world-wide web site and toll-free number. Both allow you to get information on the "morning after" pill and other forms of emergency contraception, and then find the clinics, hospitals or doctors nearest you that will prescribe them. Call 1-800-584-9911 or access <http://opr.princeton.edu/ec/ec.html> right away. *Don't "wait and see what happens."* You have 72 hours!

AN INTERVIEW WITH REV. KORDA Reprinted from *Snuff It* Magazine

SI: The platform of the Church of Euthanasia includes suicide, abortion, cannibalism and sodomy. Why did you choose those four things?

Korda: Well, first of all we have to establish what they all have in common, and that is of course that they all reduce the human population, which is the primary goal of the church.

SI: And you approve of these four methods?

Korda: Well, these are the four that really stand out as being the most useful for the moment.

SI: But you approve of all methods?

Korda: We prefer methods that are voluntary. The population is going to get reduced one way or the other. We have a choice between allowing things to continue the way they are, in which case natural forces will reduce the population for us, with the

maximum amount of violence and unpleasantness, or we can take steps to try and reduce our population voluntarily, through the four pillars of the church.

SI: You're opposed to involuntary population reduction?

Korda: We don't believe in mass murder. We would prefer to see things done in an orderly and sensible manner, to the extent that that's still possible. The longer we delay, the more likely it becomes that there won't be any sensible solution. Already we see chaos in our society, spreading out from the cities, and from the United States to the rest of the world. There's not much time left. If there's going to be an orderly solution it needs to be started immediately.

SI: And you're not just talking about zero population growth, you're talking about population reduction.

Korda: Absolutely. It's been well known for some time now that zero population growth just isn't enough, and we haven't even achieved that. It's a common belief that the United States has already achieved zero population growth, when in fact, nothing could be further from the truth. Our population continues to grow, and not just from immigration. In the rest of the world, the population is growing at an incredible rate. As things become more and more uncertain, due in large part to the tremendous strain placed on the ecosystem by the industrial nations, people have less and less confidence that their children will survive, so they have more of them. The numbers speak for themselves. At the current rate, the human population will reach eight billion by 2020, which is well within our lifetimes. It's just common sense that the Earth's ecosystem is not going to sustain that population, and that the side effects are going to be famine, disease, war, and chaos on a scale that we can't even imagine yet.

SI: The apocalypse.

Korda: Right.

SI: But wouldn't the apocalypse accomplish your goal?

Korda: Actually, no. The apocalypse would involve the destruction of the ecosystem, and that's what we're trying to prevent. There are many groups out there who support war, particularly nuclear war, as a way of drastically reducing or eliminating the human species. There is no doubt that the process would be effective, but it would also make vast areas of the Earth unsuitable for any form of life. What we're trying to do is put the human species back in balance with the other species on the planet. We're trying to prevent the apocalypse.

SI: Abortion and suicide are obvious. These are responsible decisions that people can make. Can you be more specific about how sodomy will directly affect the population?

Korda: Well, no one ever got pregnant from sodomy.

SI: (laughs)

Korda: Seriously, why do you think it's still illegal in most states? We are living in a society that is almost entirely dominated by heterosexual males. Our government is a patriarchy. Our god is a father figure. There's been no check, no restraint, on male power for hundreds of years, and the results are horrifying.

SI: Why do males behave this way?

Korda: It all comes down to biology. The male has approximately six hundred million sperm in his body at any given time, and these little guys are jumping up and down in there yelling "let me out, let me out!" By contrast, the female has one egg. There's a well known saying that when the dick gets hard, the brain gets soft, and it's actually very close to the truth. Men will say anything to get laid. Their sperm makes them crazy.

SI: The dreaded sperm buildup!

Korda: It's not just that. Males also lose an enormous amount of energy when they ejaculate, unlike females, who lose their energy through menstruation. Women can have orgasms all day long without any problem. This is the principle reason females live longer than males. All of this was well understood in traditional Asian cultures, where boys were taught sexual yoga to help them retain their semen. In our society, men are encouraged to ejaculate as often as possible, so of course they become weak, and gradually develop deep resentment towards women. This makes them extremely dangerous, and causes sadism and violence. Industrial society is really the male's attempt to get revenge for his natural sexual inadequacy by raping the Earth.

SI: So you're opposed to ejaculation?

Korda: Yes, but we're also pragmatic. What we're saying is, since we have all these angry men trying to get rid of their sperm, why don't they get rid of it in each other?

SI: But what if they don't want to be queer?

Korda: Women can oblige just as easily. Grease it up. If more guys were fucking asses instead of pussies, the population would drop. That's the bottom line.

SI: (more laughs) Should they wear condoms?

Korda: Of course! We're opposed to all needless suffering, including AIDS.

SI: Okay, cannibalism. Are there any restrictions?

Korda: Look, we have fifty thousand automobile fatalities per year, and we're lucky if we recycle a few organs. Perfectly good meat is being buried in the ground, or incinerated. That meat should go to straight to McDonald's. The United States wastes vast amounts of energy so that its citizens can eat as much meat as they want. It's just plain dumb. It takes more than seven pounds of grain to create one pound of meat. Read Diet for a Small Planet if you want the exact figures. There's no sensible reason why the rest of the world should starve so that we can eat meat. It's just another form of cultural decadence. But the church is realistic. We're not expecting Americans to stop eating meat, any more than we're expecting them to stop ejaculating. If they have to eat meat, let's make sure it's human meat.

SI: Have you researched the nutritional value of human flesh?

Korda: There's nothing wrong with it. It's good for you, and tasty too. My understanding is it tastes rather like pork.

SI: Is it true that you'll be publishing a church cookbook?

Korda: There have been rumors to that effect. We're working on it. The main problem is testing the recipes.

Hello. It's sticker time again. We just got picked up by a big distributor in San Francisco (woo woo). The only bad news is they couldn't decide which ones they liked so they ordered all 28. Yikes. This means we're going to need three sheets again. Hopefully next time they'll settle on some favorites.

SHEET A (250):

1. TEACH MASTURBATION
2. TEACH MASTURBATION (again, total 500)
3. THANK YOU FOR NOT BREEDING
4. TAKE OFF YOUR SEAT BELT
5. SMOKERS DO IT
6. I LIKE TO WATCH
7. THE POLICE ARE YOUR FRIENDS
8. THE WORLD IS MY ASHTRAY

SHEET B (200):

1. DON'T BLAME ME
2. THANK YOU FOR NOT BREEDING (again, total 450)
3. WHO NEEDS OXYGEN
4. TOOL-WIELDING APE
5. SCREWING THE NEXT 7
6. MOMMY WHAT WERE TREES LIKE
7. VASECTOMY PREVENTS
8. GOD IS COMING

SHEET C (100):

1. EFFICIENCY=DEATH
2. WRAPPED IN PLASTIC
3. GIVE UP MY CAR
4. SIX BILLION HUMANS
5. THERE'S HOLES
6. YOUR SENTENCE IS
7. I'D RATHER BE
8. GOT MINE UP YOURS
9. GOD IS COMING (again, total 300)

So, $8 \times 250 + 8 \times 200 + 9 \times 100 = 4500$ stickers. I need to ship them January 4th if possible. If this is no good, please let me know if asap.

This page shows the error: it's mostly in the +/- 25% range, which is pretty decent I guess. We're trying out a new concept here (recommended by one of my distributors). The idea is to not only group the stickers by sales per week (which we've been doing all along) but also put the hottest stickers on every sheet. That way no matter which sheet you run, you always get more of the hot ones.

PRAYER FOR A GOOD DEATH

Great Spirit, I am unworthy;
My species has disgraced itself.
Of all the species that live, or have ever lived,
Mine is the lowliest.
Lower than the flowers who fill the air with sweet pollen,
Lower than the trees who encircle the Earth with their roots,
Lower than the insects, rulers of Earth
Since the beginning of time,
Lower than the darting fish,
Lower than the soaring birds,
Lower than the four-legged creatures,
Who are the beating heart of the living Earth.

Great Spirit, my shame is as deep as the ocean,
And my sadness is unbearable.
I pray for enlightenment,
But fear that my prayer is too late.
Great Spirit, if this be so, then I pray for extinction.
Let my species become extinct, and vanish from the Earth.
Let my loins be barren,
Let my seed not sprout,
Let the race of men fall like leaves.
Let my fields grow wild,
Let my fences crumble,
Let my cities turn to dust, and become forests.
Let the grass drink my blood;
Let my body be food for worms.
Great Spirit, let me die, that the Earth may live.

Hi Monique. I got your message, and that sounds great. I'm sure the new and improved shirt will makes things easier for everyone. Here's our order, 432 shirts in all:

"CHURCH" (SPIKY STPKY ON FRONT, 4 PILLARS ON BACK): 91X 53L
"NO BREEDING" (TYFNB ON FRONT, LITTLE MEN ON BACK): 82X 62L
"SAVE THE PLANET" (BLOCK STPKY FRONT, 2-COLOR BACK): 101X 43L

By my reckoning, our total should come to \$2376 (432 X \$5.50), but math isn't my strong point so please let me know if that's not right. As I said yesterday, our main production concerns are:

1. Good coverage (solid whites).
2. Keep the circles round, esp. on the "No Breeding" shirt.
3. Watch for loose threads that get stuck in the ink.

Do you need samples of the shirts to determine placement of the designs, or is that fairly standardized? If so, let me know and I'll have someone bring them by. Thanks again for all your help!

Hello. Hell asked me to send a list of all the equipment I'll need for the performance. Here it is:

-----	-----	-----	-----	-----
PC	66MHz 486-DX	22x16x7	25	500
PC mouse	Mitsumi CE	4x2x1	0.2	20

transformer	for Kawai MM-16	1x1x1	0.2	5
transformer	for Alesis Quadraverb	2x2x1	0.5	5
asstd. cables	midi, power, audio	?	?	?

I'm currently assuming that you'll provide the 8-channel mixer, the VGA monitor, the PC keyboard, and the power adapter, and that I'll provide everything else.

The heaviest remaining items are the PC and sampler, so if you can provide either of them that's very helpful. However there's always the risk that for some reason I won't be able to get things to work on a different PC. For this reason it might make sense to play it safe and bring my PC. I'll certainly want to bring my own hard drive, along with many backup diskettes, and of course my midi interface, along with a backup midi interface just in case.

My goal is to avoid 1. not being able to perform because I don't have equipment and 2. problems with customs. So far it seems the best way to avoid either of these is to pack everything up in an ATA Anvil case and ship it to Munich a week before I fly there.

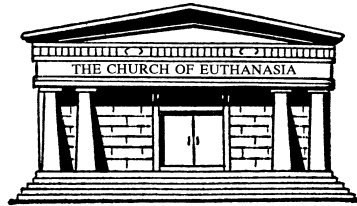

To get all this stuff through customs smoothly I'll need an export document called a "carnet." It proves that I'm only bringing the stuff in temporarily. The document costs around \$200 and is good for one year. So if I get a carnet, it will cover a summer tour if we decide to that also. With insurance, the shipping costs will be around \$250 each way (\$500 round trip), plus the carnet for a total of \$700. So the question is, is Disko-B willing and able to pay this expense?

The expense has to be balanced against the risks (and costs) of trying to borrow or rent the equipment there. For myself, I would prefer to be (relatively) relaxed knowing that my equipment is being shipped to Munich with insurance, instead of worrying about whether we'll be able to borrow this or that, or hassling with airline and customs officials.

Okay, that's all for now. I won't make any move until we talk again. I look forward to hearing from you on Thursday.

Congratulations on being #1...

Chris

RE: NEW INFORMATION

Hello. I'm up all night again trying to get the mixes working. It's difficult to get them so that I can run one track into another without stopping. More practice.

Anyway, first of all I spoke to Lufthansa Airlines today and they informed me that they're having a special, round trip from Boston to Munich for only \$238, amazing! But you have to book it today, the sale ends today at 11pm.

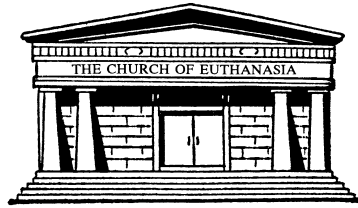

They also told me I can exceed the standard size and weight limits for a fee of \$100, providing the weight is less than 80 lbs., which it would be. This is cheaper than the prices I've been quoted by cargo shippers (\$250 one way), so I'm starting to think maybe it makes more sense to bring the stuff on the plane. The airline won't insure the equipment for its real value, so I'd still need insurance from an independant insurer (probably around \$50 one way) and I'd still the need "carnet" to get through customs.

Also this way the logistics are easier: the stuff arrives with me, hopefully. What do you think?

Is it possible to fly directly into Munich, and avoid the train from Frankfurt? I'm going to carrying (or dragging) a 70-pound box plus other luggage, so the simpler the plan, the better.

Also will it be possible to use "electronic" tickets so I can just pick them up at the airport, instead of waiting for them to come by mail? This is how I arranged it last time: it's very convenient. I don't think it costs extra but I'm not sure.

Hi Joseph. I'm a little concerned because the tickets did not arrive in today's mail. If you mailed them on the 17th, it's now been 13 days, so it's possible something is wrong. The address was **** Street, Somerville, MA 02143, yes?

There have been some problems here. I had tickets to Florida to finish "Sex Is Good" but they were on PanAm, which went bankrupt last thursday. It's quite difficult to find last-minute tickets to Florida during spring break when the students go to lie in the sun. Today I found another ticket, but it's expensive: \$324 round trip. I don't have any choice, so I took it.

On the good side, we put on a rave here in Boston, at the Church, on saturday night, and it was a big success. Benny Blanco was one of the DJs, and Fred was there. I performed my set, about 45 minutes, and people enjoyed it very much.

Dear Joseph,

I just got back from Florida, the record is finished, and the tickets arrived today, so everything is set now. Well not quite everything, I still have to pack all my gear in foam. Also I have a question: is anyone meeting me at the Munich airport? I assume not, since I'm getting in so early on the 17th (9:20 AM your time). If not, where should I go at that hour? Should I take a taxi to the Disko-B office, and how expensive is that likely to be?

I enclose detailed a list of the things I'll need for the performance:

- * Power converter (European to US)
- * VGA monitor
- * PC keyboard
- * mixer:
 - minimum 8 channels
 - at least two microphone (low-Z XLR) inputs with trim
 - at least one effect or AUX send
 - at least one stereo (or two mono with pan) effect/AUX returns
 - low, mid, and high EQ on each channel would be a big help
 - the Mackie 1202 is a good example, I used it at the rave

Okay, that's all for now, I'll see you soon!

Dear Joseph,

Good to hear from you today! Here is the proposed track list:

CHRIS KORDA
and the Church of Euthanasia

SEX IS GOOD

SIDE A:

Sex Is Good (9:22)
Featuring Ingrid Schorr
Mix: David Frangioni

Sex Is Good (4:00)
Mix: Fresh Out of Dog

SIDE B:

Steel Peas (7:04)
Mix: David Frangioni

World of Hurt (6:23)
Mix: Chris Korda & Kevin Roche

With the two versions of "Sex Is Good" on the A side, each side will be around 13:20, which is a good length. Of course other arrangements are possible.

Now for the production expenses (ug):

Steel Peas mix:	736.25
Steel Peas mastering:	115.75
Steel Peas safety:	92.00
Sex Is Good ADAT transfer:	264.00
Sex Is Good mix & master:	1076.80
airfare to Fort Lauderdale:	324.00
car rental in F. Lauderdale:	85.78
airport parking:	36.00

	2730.58

I have receipts for all of this: I'll bring copies of them with me. The above does not include expenses associated with the upcoming live performance. So far that's only the cost of the carnet and insurance, about \$250.

Well that's all for now, see you in Munich!

The contrast is very faint, and I can only read the big words. The contrast on Arnold is good, so maybe the credit scan was too light.

Not much new here, just trying to pull various things together. I'm trying to get a gig at the Phoenix Landing, the same bar the Gigolos played at when they came. Not to pry, but how much did they pay, more or less? Is \$500 a reasonable amount? Also we might have another rave at the church, probably in May. If #13 is out in time, it'll be a record-release party as well.

RE: RESERVATIONS
DATE: 5/17/98
PAGE: 1 OF 1

Hello, Joseph. I got your fax yesterday, and today made good progress. I think the best plan is for us to fly to Frankfurt, and then rent a car and drive to Munich. The reason is a special fare available from Lufthansa, Boston to Frankfurt for \$718. Boston to Munich is more expensive: Lufthansa's lowest fare is \$1068, and United is even more, \$1166. We have ticket agencies here that buy up airline flights and sell them cheap, and even they couldn't do better than \$920. The one-way car rental is \$56 (98DM) from Avis, so both car rentals plus the \$718 is still only \$830, which is quite a bit less than 2000DM. I might even be able to get a cheaper car rental: I'll find out tomorrow.

Here's the itinerary:

Tue, Jul 7	Boston	5:20pm	Frankfurt	6:15am	Lufthansa #423
Wed, Aug 19	Frankfurt	5:40pm	Boston	7:55pm	Lufthansa #420

I play in Cologne on Saturday, August 15. Is it possible to get to Frankfurt by Wednesday evening? I figure we return to Munich on Sunday night or Monday morning, and leave Munich Wednesday morning. That still allows a day of slack in case something goes wrong. Maybe it makes more sense to travel from Cologne directly to Frankfurt, but I don't think so.

What do you think? Please give me a call Monday morning, say between 10am and noon, okay? Talk with you then.

Hello, Joseph. Here's how it is with the airline: it's a special deal, so the tickets have to be paid for by tomorrow evening. After that, it will cost \$150 (per passenger) to change the return date. It will NOT be possible to change the departure date from Boston: I would have to cancel the reservation and start again, and this would be very expensive of course.

So, please call me before 5:00pm (my time) tomorrow if there's a problem, otherwise I'll go ahead and pay for the tickets.

I felt like maybe I wasn't being clear at one point this morning, when we were talking about my playing an ambient set. What I was trying to say is that I see an ambient set more as a second option, so that if there's an opportunity for only ambient, I can adapt. But if it's possible to play the set the regular way, the way you heard it, I prefer to do it this way: it's more exciting.

So, everything is coming along, good luck, talk with you soon.

Dear Joseph,

My good friend Toshi is making a movie about the Church, and he wants to join us for a week or so, I hope this is okay. He plans to go to Berlin for the Love Parade, and after that he'll visit a friend in Dusseldorf. He's expecting to pay all his own expenses, and I think he has a place to stay in Berlin, but he does need to a place to stay in Munich. I told him that if we're staying in the back room at Christoph's there are three beds, but it's totally up to Christoph. Toshi said he's willing to work, pay or otherwise make himself useful. He has a flight to Munich on the 8th, arriving in the afternoon. Marilyn and I should be at Christoph's by then, but just in case, may I give him your handy number? Our plan is to call you when we get to Munich, and meet you somewhere.

We just had our "Sex is Good" party here, and it was a big success with 350 people, except that the guy we were renting the space from ripped us off and took most of the money, over a thousand dollars. I think we have a lot to learn about throwing parties.

Dear Joseph,

I sent Orel (mona@sin.at) an email letting him know that all my pictures are available on the churchofeuthanasia.org website. This way he can pick and choose what he wants.

I arrived back in Boston a bit disoriented, so I'm still trying to get my life back in some kind of order. I'll get to work on the record as soon as I'm able, certainly in October.

My next gig is at a gay bar here in Boston on September 22. Perhaps I should change my samples to say "anal sex is good."

Greetings from Marilyn.

Hello Hell. How are you? I'm making good progress here. I've written two new tracks, which together give me enough material for the CD. The first is an instrumental called "Stencil", the second is the title track "Six Billion Humans Can't Be Wrong", featuring vocals by the Chicks on Speed. So now I have two big tasks ahead: first I have to arrange "Fleshdance", "Stencil", and "Six Billion Humans", and then all three have to be mixed. I figure I'll be done with the arranging by late December. In January I hope to come back to Germany for the mixing.

I played a cool gig at a gay bar next to a nuclear reactor a few weeks ago. Also I went camping in the mountains with hippies and played drums all night. Otherwise things have been pretty quiet. I hope you're doing well, and having success with your music.

Yours,

Chrissy

DATE: 10/8/98

Hi Joseph. I paid for the reservation today. The total is \$397.53 so please send this amount as soon as possible.

I will arrive in Munich at 8:05am, Thursday, December 3, on flight 114 from Frankfurt. My return flight leaves from Munich on New Year's day, 8:45am.

I need extra time to get the equipment through customs, so I should arrive at the airport no later than 6:30. It's about a half-hour drive, maybe a bit more, so that means we should be loading out my stuff around 5:30, to be on the road by 6:00. It takes me at least an hour to break down and pack all the equipment, so I'll have to start doing that by 4:00.

It would be better for me to perform earlier. I think 2:00-3:00 would be the best slot. That way I don't have to start breaking down immediately. No stress!

With Naughty the plan is easy. I go to Ulm, as soon as we can arrange a ride, and work with him until the tracks are done. I'll talk with him again before I leave.

I'm going to very involved in the packaging. Marcus has the shocking cover photo, and I'll bring the other artwork with me. I hope we'll get the layout at least agreed on, if not finished, while I'm there. Will there be a booklet? I need to know this!

IMPORTANT!!! I have the design for the CD itself (I'll send it in a separate fax) and it is made from curves in Corel Draw 4.0. You could help me very much by letting me know if this file format can be imported directly, or if I should arrange to have it exported as something else, and if so what. I'm reasonably sure Strada uses Illustrator on a Mac. This would be a good question for Taren or Stephan. If we get this right I can bring the correct format with me on diskette and save everyone a lot of time.

Also I should say now that I want to be there in Berlin when they master the CD. I know it's unusual, but it's very important to me.

Okay, that's all for now. Thanks and see you in just a few

months!

Chrissy

Dear Joseph,

It was good to talk with you today. Regarding the CD and the single vs. double vinyl questions, here are my proposals. I'm okay with releasing the new "Fleshdance" on vinyl, provided it's a double vinyl. It will go well with "Zeal", and this way we won't have to give up other tracks. Also, the "Fleshdance" DAT is on its way to Berlin.

Regards,

Chrissy

I sent the bonus track to Dub Plates & Mastering by express mail, so it should be there by now. IMPORTANT: the version you prefer is the third one, BUT it is track number TWO on the DAT. This is because the second version did not receive a start-ID. It happens all the time, and it's not a serious problem, it just means someone has to explain the situation carefully to Stefan.

Dear Joseph,

My last couple of emails were a bit too emotional, and I apologize for that. Of course it's better if we work together, "team work" as you say. I think we can all agree that the most important thing is to release the music now, and not wait until 2000. So I think you should do whatever you think is best regarding the cover. I'm sure you have the right experience to make these decisions.

I understand that you have to keep your costs down, so I agree to pay the studio costs. But to keep things simple, I propose that you send me the 5000DM advance. I will take care of paying Naughty and Michelle. This arrangement helps me to pay less taxes.

I thank you for expressing your concerns. It's better to forget about old disagreements now, and concentrate on the present. I'm sure this project will benefit both of us, and I look forward to seeing it completed.

Kind regards,

Chris

Dear Joseph,

I'm back in Boston in one piece, though unfortunately I somehow caught the flu Sunday night, so on the airplane I was very ill with a high fever. I'm getting a bit better now, in a few more days I should be okay.

I didn't manage to get in touch with you on Sunday, so there's some unfinished business. I'll just list it here:

1. The wire transfer for the royalty money still hasn't come through. I'm unclear on what the problem is at this point.
2. Has there been any word from Andy Orel regarding the missing photo? I would really like some resolution on this.
3. Maybe you already heard from Christoph, that he had no room for me Sunday night. He was kind enough to find me a hotel, which was not so easy, because of the Christopher Street day festivities. Also no one was available to give me a ride to the airport Monday morning, and so Suzanna advised me to take a taxi, which I did. The hotel was DM 150, the taxi DM 100.
4. I stupidly left my nice black London Fog raincoat at the Ultraschall Saturday night, in the DJ booth. If someone has found it--maybe David?--I would be very grateful if they would leave it at the office, where I could pick it up the next time I'm there.
5. I found the extra CDs you left in the DJ booth, but NOT the extra vinyls, which were in white sleeves without covers. I have no idea what happened to them. It was dark so maybe I didn't look in the right place, or maybe someone found them.

6. Regarding the album sales, extra baggage fees, and so on: By my count I sold fourteen CDs and six vinyls, a total of twenty albums. I took four vinyls back to the US with me, to give to DJs. There are eight CDs remaining, which I left for you at Christoph's house. It seems to me that as a distributor, I should be paying the same price for the albums that EFA is paying, no? DM 20 is perhaps a bit high? It's not such a big deal, but let's do the math at DM 15 per album and see how it comes out:

Extra baggage charges	346 (round trip)
Munich hotel	150
Airport taxi	100

	596
20 albums at 15 each	-300

	296

So it comes out that I'm owed about DM 300 or \$150, which is not so much, but still I'd like to receive it. Maybe it can be added onto the wire transfer?

Well that's it for all the details now. It was quite a successful tour I think, and much was learned, so that the next one will be even better. Keep in touch, talk with you soon.

Chrissy

Dear DJ Hell,

My address is above. Today I'm sending you 3 copies of the 12", a copy of my CD "Demons in My Head" (a 44-minute one-track ambient sound collage, sometimes compared to Zoviet France), the latest issue of the Church of Euthanasia's journal "Snuff It", a copy of a 4-page feature on the Church that appeared in Der Spiegel #48, some more press, and other assorted good things, including stickers which I hope will be useful for promoting the record.

Please make the check payable to The Church of Euthanasia, **NOT** Kevorkian Records: Kevorkian Records is out of business and its assets were absorbed by the Church. The bank information is:

I was excited to receive your fax today. I have some minor corrections I'd like to make, which I'll list right here:

1. The address in the upper left contains two errors: it's "Church" not "Curch," and it's "Somerville" not "Sommerville."
2. My name is misspelled on the "Name:" line. It's Chris Korda, not Chris Koda.
3. I'd like change the "Term:" line to read:

Term: exclusive for two years with option to renew,
except the Church of Euthanasia reserves the
right to sell the remaining copies (approx.
50) of the original release via mail-order.

If these changes are reasonable, please fax me a corrected copy of the contract, and I'll sign it and fax it back to you, okay?

Lots of other media is on the way too, it can't hurt. At some point I assume you'll want to do a press release, yes? Dear DJ Hell,

I have a plan taking shape for POPCOM, something like this: I will perform the solo version of SAVE THE PLANET KILL YOURSELF with just voice and guitar (this is very spooky) and also demo a mix of my unreleased track called WORLD OF HURT, which is revolutionary experimental dance music, never before heard anywhere. I can also speak for the CHURCH OF EUTHANASIA if there's time and if it's appropriate. How much time will I have? The solo version of STPKY is 5 minutes, WORLD OF HURT is on DAT and is about 6 minutes.

How long would I be in Germany? I ask because I'd like to arrange at least one other public performance of some type while I'm there, something more directly related to the Church because many people in Germany have heard about the Church, through the press and also the Internet. I will contact the people I know in Germany and ask them to contact you with ideas, okay?

What again is the name of the music magazine that wants to interview me? I couldn't get it on the phone. The reporter is RRILEY RIENHART??? Will he be calling me in the next few days?

RE: TICKETS
DATE: 9/5/97
PAGE: 1 OF 1

Dear Joseph,

The tickets are on their way to you via airmail: I'm pretty sure they were mailed on the 1st. I am well, though very stressed-out.

My experience in Germany had a very strong effect on me! I'm trying to re-arrange my life so that I can spend most of my time making techno. This means moving around a lot of furniture, both physical and intellectual. I need to extricate myself from the Church to some degree but this is not so easy. I also need help setting up my techno studio! Maybe Disko B can help me with this?

Upstart said something about hooking me up with a techno-making friend of his (possibly a Disko B artist?) who lives in Boston. I'm going to have to buy some new equipment and this is hard not only because I'm poor and hate spending money even when I have it, but also because I'm not sure exactly what to buy. I'm pretty sure I'll need a Roland JV-800 (?) for fat analog sounds that can be controlled digitally. I think Richie has one of these? Also I'll need a new drum machine of some kind, again, I'm not sure. Though I like the totally analog 909/303 style, I think I prefer something more modern, but again much research is needed. I just bought a used Tascam DA-30 DAT for only \$500, and just in time (the D-3 is eating tapes). Hopefully my friend will help me drill holes through the wall so the computers can live in the next room.

I don't want them in the studio anymore; the noise drives me crazy. The monitors are going to be mounted on concrete blocks for stability, but they're only Yamaha NS-10 near-field monitors.

Kevin (my engineer/roommate) is concerned about "standing waves" due to the speakers being placed along the wall of a box-shaped room. Is this a serious problem? Would designing the studio diagonally help? David Frangioni (my producer) uses NS-10's but he also has a specially designed studio with asymetrical panels, acoustic baffles, etc. The biggest problem is not knowing what the mix is really going to sound like on a club system. Even if I had club speakers like Richie I couldn't use them at full volume here. So, problems, but they'll be overcome somehow. I have many new ideas for music and can't wait to get started on them, but the studio will take at least two months to complete, so I have to be patient. I'll start by finishing "World of Hurt" (acappella) and "Sex is Good" (Richie has a rough mix of this one). It will be the worth the wait, I promise! It was good to be with all of you,

I enjoyed every minute, and I know I'll return someday. --Chris

There has been good progress here: the new studio is completed, and the software problems are almost solved. I'm already working on a "Church of Euthanasia" mix of "Sex is Good," and I have the vocals for a new track called "Fleshdance."

So, the new release could include two mixes of "Sex is Good," plus "World of Hurt" and "Fleshdance." I need more time though, is this possible?

How is your studio work going? Are you coming to Boston soon with Acid Maria? I hope so!

Dear Hell,

Sure, you can show the Jerry Springer tape on Viva, but don't say I gave you the tape, okay? You'll probably get away with it because Springer's lawyers don't watch German TV.

The plan for the release sounds good. Here are the track times:

World of Hurt 6:48
Steel Peas 7:00
Sex Is Good (Fresh Out of Dog Mix) 4:37
Sex Is Good (new mix) 6:00?

The "early house" tracks:

Paradigm 5:40
Magic Cookie 7:30
I Just Can't Let Go 9:05

Of the three house tracks, I like "I Just Can't Let Go" the best, "Magic Cookie" second best. If the record is limited to fifteen minutes per side, it might not be possible to fit any house tracks on there except maybe "Paradigm." It's easier if a side can go to eighteen minutes. One possible combination:

Steel Peas, I Just Can't Let Go on one side (16:05)
Sex is Good 1, Sex is Good 2, World of Hurt on the other (17:25)

But if it helps the sound quality, maybe it's better to have a shorter record? What do you think.

I'm still working on the arrangement for the new "Sex is Good" mix. Four minutes are finished already, two minutes more and I'm done. It's going to be a killer track. I'm so very happy right now.

It was great to see you in Boston!

Dear Mr. O'Neill,

I am available on the 27th of October, but I am working around the clock to finish my record in time, and the trip must therefore fit into three, or better yet two days, or be postponed until after New Year's. Ideally I would fly to Dublin Monday morning, spend the night, attend the debate (what time of day will it be?), and then leave Dublin Tuesday night, arriving in Boston Wednesday morning. The airport in question is Logan.

Some questions about the proceedings: What topics will covered? Will there be other debaters or just the two of us? Is it reasonable to assume that there will be a panel asking the questions, and questions from the audience as well? Will it be possible to obtain an audio recording of the debate? Is there a dress code?

Does "right-to-lifer" mean an opponent of abortion as well as euthanasia, and if so, will abortion be fair game in the debate? Any information about this right-to-lifer would be very helpful, certainly at least his or her name, religious affiliation if any, and the titles of any published works.

Yours,

Rev. Chris Korda

Dear Ms. O'Neill,

I took the liberty of calling Aer Lingus, and it seems the flights leave Boston around 20:00 and arrive in Dublin around 9:00. This will work well provided I can catch a few hours of rest somewhere on Tuesday morning, wash up and so forth. So in short I would leave Boston Monday night, and leave Dublin Wednesday morning.

Just so you know, I'm a vegan. If the airline is serving meals they may have a vegan option. If not, vegetarian will be fine.

Hello, Josh and Gwen. Here is a list of the info we've found.

HOTEL

Mighty slim pickings, folks. It turns out the eco-expo overlaps with peak "foliage" season, plus several "parent" events at big universities, e.g. Harvard & B.U. Ah well. The good news is you have a reservation at Susse Chalet near U. Mass, 2 rooms with two double beds each, Oct 12-15, check out on the 16th. Each room is \$70.70 per night + tax + an extra \$5 on the weekend nights. Such a deal! (Holiday Inn wanted \$219) Susse Chalet is a \$3 cab ride from the JFK stop on the Red line, which is three stops (10 minutes) from South Station. There is a free shuttle bus to the Red line that runs from 7-11am and 4-7pm. The reservation is under my name (Chris Korda), so you'll need to call and switch it with a credit card. I spoke to Lynn; the number is (617) 287-9100.

MAC RENTAL

1. Brenda at SLC in Boston gave us a ballpark figure of \$225 per Mac including 14" monitor (for the entire show) plus \$65 for delivery during normal business hours. She seemed reasonably open to working out some type of deal: (617) 261-6060.
2. Shimon at Elazer in Waltham gave us a ballpark of \$275 per Mac, plus ? for delivery. He seemed less encouraging about deals, but didn't rule it out, and said talk to Mike: (617) 891-0004.
3. Joe Carrieri at Fox Computer in Boston gave us \$365 per Mac, plus \$95 for delivery: (617) 628-8500 x129.

Hope that helps. Let us know if you need anything else.

Hello Ira. It's been many months since we last spoke, so I thought I should touch base. The Church is still here, and all is reasonably well. Hopefully the same applies to you. The big news is that we were granted 501(c)(3) tax-exempt status by the IRS. Your donation to our population-awareness efforts, should there be one, will be 100% tax-deductible. The state followed suit, so we're now exempt from sales tax also. Sales of stickers, buttons, and so on will henceforth be referred to as **fundraising**.

What else? Well, we thought about doing the Fashion and Boutique show at Javits in January, but can't afford it. Paradoxically, membership is up, perhaps due to rapidly expanding press coverage, including a mention in Time Magazine. We've got a bunch of new leads we're following up on right now, so with a little luck we'll be ordering more **buttons** soon, perhaps a few weeks from now.

That's about it. I'll call as soon as the dust settles.

-Rev. Chris

P.S. Thanks (belatedly) for the clippings you sent, most enjoyable.

Hi Catherine. The bastards still haven't paid up. Their telephone is (215) 629-9991. Here's the other relevant info:

Their first order was made on 5/25, for \$362.50: this was the one where they asked us not to cash their check for sixty days, which we nicely agreed to do.

The second order was made on 9/8: their check #3304 for \$154.75 was returned to us for insufficient funds on 10/10. On 10/11 I spoke to Victor, who apologized and assured me he would send us a money order for \$159.75 (\$5 for the bank fee). On 10/24 I spoke to Susan, who said "Victor must have forgotten, he's so busy, we're not going to rip you off, really, trust us, etc." and promised to remind Victor. On 11/2 I called a third time and spoke to Victor, who said "the money order will be mailed on 11/4." I checked the p.o.box this morning (11/13) and no money order has materialized.

Good luck!

Hello John. It was good to talk to you today. As I said, you're still our best customer. I want both of us to make some more money selling these outrageous stickers.

If making checks payable to the Church is a problem, then by all means let's go back to making them payable to Chris Korda. I'll do whatever I can to make this easy for you. As you know, all of our stickers were designed with you in mind: 3"x10", with no reference to the Church on them.

Here's our current sticker list, with the ones that are likely to work for you near the beginning. If Spencer Gifts can't sell "THE WORLD IS MY ASHTRAY" I don't know who can. I look forward to hearing from you soon.

STPKY	SAVE THE PLANET - KILL YOURSELF
EPNAS	EAT PEOPLE NOT ANIMALS
TYFNB	THANK YOU FOR NOT BREEDING
TWIMA	THE WORLD IS MY ASHTRAY
TMAST	TEACH MASTURBATION
TOYSB	DRIVING DRUNK? TAKE OFF YOUR SEAT BELT

Hello, Patrick. A question: are you ordering for resale? If so, we can give you the wholesale discount (it varies from item to item), though you'd need to keep future orders above the \$100 minimum (this order comes to about \$90 at wholesale prices: close enough). The only catch is we'll need a copy of your resale certificate ASAP to avoid sales tax problems (fax is OK). There is also, by the way, a separate order form on the web site for wholesale orders, which uses the discounted prices.

If you're not ordering for resale, well, please ignore everything I just said, and everything that follows, but I'll assume you are, and probably for a store. What kind of store? A record store? What else do you sell? Do you already sell stickers and buttons, and if so how are they displayed? I'm always curious about this type of thing. What will you do with the posters (they're small), and are you interested in larger ones (the Nixon poster is beautiful, a real collector's item, and appeared in the Oliver Stone film). Any particular reason you ordered Snuff It #1 and the current issue (#3) but not #2? I'll throw in #2 if you like.

Fax is a good way to reach me: I hope to hear from you soon.

Hi, Patrick. Your invoice is enclosed below; the total comes to \$119.75 including the Nixon poster. So now the best thing is for you to send a check, and you'll have everything in about ten days. If you'd prefer, for another \$4.75 we can ship COD, but then we'll need a business address because UPS won't deliver to PO boxes.

The first step to being ordained is to become an official member of the Church. Membership is official recognition of lifetime vow to not procreate. If you're not going to procreate, you're already a member, but "official" members receive a lifetime subscription to Snuff It, a 28-page e-sermon booklet, and an embossed membership certificate suitable for framing. Usually we ask for a donation of \$10 to cover future mailing expenses, but this would be waived in your case. Bear in mind however, that we take our one commandment very seriously. Procreation is grounds for excommunication: there are no exceptions.

Once you're ordained, titles come with participation. Though there is only one Reverend in this church (that's me), many other titles are available, including pope, cardinal, bishop, father, sister, deacon, pastor, peer, abbot, and more that I can't think of now.

So, let me know if you'd like to become a member: again fax is good, or coe@netcom.com if you have email. By the way, how did you discover the Church?

Unfruitfully yours,

Rev. Chris Korda

Dear Henryk,

I'm hard at work on the next issue of our journal. I've spent a lot of time thinking and reading lately, so there will be many new ideas in this issue. As usual, my biggest problem is photos. I wonder if any of the pictures you took in Brookline came out? At one point you offered to send me a set, and if this is still possible I would greatly appreciate it.

We had one more big "action" in October, and we're searching for a new chapel, but otherwise nothing much else is new here. I hope things are going well for you. I really enjoyed your visit, and I look forward to seeing you again next summer.

Dear Jacques Chirac,

According to an ancient Hopi prophecy, "A gourd of ashes might one day be thrown from the sky, which could burn the land and boil the oceans." The "gourd of ashes" is the nuclear weapon, and its use is one of the predicted signs of the Great Purification, along with climate change, increases in the frequency and severity of "natural disasters," and loss of species including the beaching of whales.

Though they have already dug precious things from the land, poisoned the air and water, desecrated many sacred places, and destroyed one-third of the species on this living planet, Humans may still prove capable of restraint; the Nuclear Non-Proliferation Treaty is a symbol of this faint hope. We urge your leaders to take the path of enlightenment, and demonstrate their respect for this treaty, by abandoning their plans to resume testing nuclear weapons on Moruroa and Fangataufa.

The "gourd of ashes" is the nuclear weapon, and its use is one of the signs of the Great Purification, along with climate change, increases in the frequency and severity of "natural disasters," and loss of species including the beaching of whales.

We pray that the French will take the path of enlightenment, and demonstrate their respect for this treaty, by abandoning their plans to resume testing nuclear weapons on Moruroa and Fangataufa.

In part due to your efforts, the United States has taken many small steps towards violating the NPT, even while publicly upholding it. The resumption of French testing could easily provide an excuse for the United States to abandon the treaty entirely. We urge you to renew America's commitment to the NPT, by personally telephoning President Chirac to persuade him to cancel the tests.

Hopefully,

Rev. Chris Korda

Dear brethren,

The Being has spoken. The French government's planned resumption of nuclear testing is an abomination, and must be stopped. We call for a Jihad, a holy war of propaganda. Let there be demonstration, disruption, and DADA. Let President Chirac's ears ring with shouts of protest. At this very moment, a flotilla of 30 "peace ships" surrounds the test site, and Greenpeace divers are swimming inside the "exclusion zone," despite the terrible risks involved. Let the French people set an example of compassion for all other nations.

We ask each and every one of you to send a fax to the French Consulate. In the United States, the Consulate's fax number is (202) 944-6072, and the Whitehouse's fax number is (202) 456-2883. We enclose copies of our faxes for inspiration.

Dear President Chirac,

TO: BOSTON PHOENIX EDITOR
DATE: 11/4/96
PAGES: 1

Dear Editor,

As a close friend of local artist Lydia Eccles, I am writing to inform you that the article on Gonzo Graphics in the November 1 Phoenix contains out-and-out lies which detract from her excellent work. The article states that Greg Pascucci "got in touch with Eccles and asked if he could put her Nixon image on a T-shirt." In fact, he ordered a poster from Lydia, and then copied it onto T-shirts without permission. Pascucci ordered his poster after reading about it in the February 16 Phoenix, in an article by Kathy Salmon ("Arts," page 3).

Lydia never "offered a second piece" to Pascucci: she kindly included several bumper stickers from her Unabomber Presidential Write-In Campaign with his poster, and he rewarded her generosity by copying one of them onto T-shirts also. Lydia discovered all this by accident, after running across one of his brochures at the Hempfest on the Boston Common, September 21.

Lydia got in touch with Pascucci, not the other way around: she met with him on Sept. 23 and informed him that he was using her images for profit without permission, and that his use of the Unabomber stickers was particularly heinous since they were obviously intended to raise money for an ongoing election effort.

She asked him to donate a percentage of his profits to the campaign, which he has failed to do, despite an explicit verbal agreement.

Lydia spent over a year and thousands of dollars of her own money on the Unabomber campaign. Her efforts were intended to encourage meaningful debate by disrupting the electoral process, not fatten a con-artist's purse. Obviously the Phoenix can't help being lied to, but it could easily have contacted Lydia to check the facts, and chose not to do so. Thus I hold the Phoenix fully responsible for misrepresenting the campaign, and I demand that the Phoenix not only print this letter, but also give the Unabomber campaign equal coverage as a serious election effort.

Unlike many larger papers, the supposedly "alternative" Phoenix has largely ignored the Unabomber campaign until now. It is significant that the Phoenix should choose to mention the campaign only on the eve of the election, and even then only as a commodity, deprived of its subversive content. I publicly challenge the Phoenix to cover the real story, in front of the Boston Public Library on Tuesday, from 7-9:00am or 5-8:00pm, where campaign members will be holding signs and conducting exit polls.

Yours, without corporate sponsors,

Dear Editor,

As a close friend of Lydia Eccles, I am writing once again to ask that the Phoenix correct several serious mistakes in the "Gonzo Graphics" article of November 1. The article incorrectly stated that Greg Pascucci "got in touch with Eccles and asked if he could put her Nixon image on a T-shirt." In fact, he ordered a poster from Lydia after reading about it in the February 16 Phoenix, and then copied it onto T-shirts without permission. Lydia never "offered a second piece" to Pascucci: she kindly included several bumper stickers from her Unabomber Presidential Write-In Campaign with his poster, and he thanked her by copying one of them onto T-shirts also. Lydia spent thousands of dollars of her own money on the campaign, and her efforts were intended to encourage meaningful debate by disrupting the electoral process, not fatten Pascucci's purse.

Pascucci received a number of e-mails protesting his behavior, and since then he has threatened Lydia. Meanwhile he continues to reap the benefit of his coverage in the Phoenix. This is unfair, and unreasonable: please set the record straight.

FOR IMMEDIATE RELEASE
MARCH 31, 1997

EUTHANISTS WILL HONOR HEAVEN'S GATE

The Church of Euthanasia will honor the deceased members of Heaven's Gate in a ceremony to be held Sunday, April 13 at 3:00pm on the Boston Common. The heroic web designers will be made honorary members of the Church of Euthanasia, and after a service led by Rev. Chris Korda, 39 earthworms will be released from containers into the grass. The male Heaven's Gate members will receive special honors for undergoing surgical castration in their efforts to avoid procreation.

Euthanists advocate restoring balance between Humans and the remaining species on Earth through voluntary population reduction, and actively support the right-to-die, pro-abortion, animal rights and sexual pleasure movements. Their DADA-inspired tactics and vociferous opposition to the Christian pro-fertility cults led to spectacular confrontations in front of abortion clinics last year.

The Church of Euthanasia was founded in 1992 after Rev. Korda channeled the alien message "SAVE THE PLANET--KILL YOURSELF." Like Heaven's Gate, the Church has an international following, and disseminates its point of view through the Internet, as well as paid advertising, musical releases, and its journal, "Snuff It."

Rev. Chris Korda will also appear on the web-exploring PBS TV show "Internet Cafe" during the week following April 18. Please check your local listings for the exact date and time.

Dear Hell,

How are you? I almost saw you in New York last weekend, at the Pyramid. I was waiting outside, but there were too many people, and I couldn't get in. I met a friendly punk painter named David Hochbaum, who was waiting for you to show up. He said he's a friend of your girlfriend.

Hell, I'm really sorry if I've caused any trouble for Gigolo. I heard from Suzanna that she had a gig lined up for me in Berlin, at Maria am Ostbahnhof again, but I didn't hear about it soon enough. I really apologize for this. I would still love to play in Berlin, if it can be arranged. I have some new music I could play there. It's very minimal, almost like film music.

So, I hope you are doing well, and I hope I'll see you again soon. Hello to everyone at the office, Josef, Suzanna, Jurgend, Upstart.

Love,

Hello Henryk! I have exciting news: I'm going to be in Germany in August, because SAVE THE PLANET--KILL YOURSELF was re-released on vinyl in Germany last week by International Gigolo records and is now at the top of the German techno charts. Gigolo has invited me to appear at the POPKOM music convention in Cologne on August 16, where I will perform the solo version of SAVE THE PLANET--KILL YOURSELF, debut a new track titled WORLD OF HURT, and speak on behalf of the Church. I'll also be in Munich for a few days starting August 18, and I would love to hook up with you if it's possible. I'm trying to set up at least one Church of Euthansia event of some kind while I'm there, for example a talk or possibly a sermon. There are many people in Germany who have heard of the Church--thanks to you--and would attend such an event if they knew about it. Do you have any ideas about how I could set this up?

I enclose the address for the record label in case it's useful:

Hello Ingolf! Here's the exciting news.

SAVE THE PLANET--KILL YOURSELF was re-released on vinyl in Germany last week by International Gigolo records and is now at the top of the German techno charts. Starting next week it will be available from the United States' largest dance distributor, Watts Records.

Gigolo has invited me to appear at the POPCOM music convention in Cologne on August 16, where I will perform the solo version of SAVE THE PLANET--KILL YOURSELF, debut a new track titled WORLD OF HURT, and speak on behalf of the Church of Euthanasia. I'm also planning a two-day stopover in Munich starting August 18.

I'd like to hook up with you somehow. Is it possible? Also I'm trying to set up some kind of public Church of Euthanasia event while I'm there, a talk, or a sermon perhaps. Do you have any ideas on how to do it? I think many people in Germany have heard of the Church and would be interested in such an event, but how will they find out about it? In case you want to speak with DJ Hell at Gigolo Records, I enclose his address and numbers below.

In other news, the Church of Euthanasia will appear on the Jerry Springer Show, a controversial tabloid talk show on national TV, on Monday, August 11. Six million housewives can't be wrong? I look forward to hearing from you soon (fax is good)!

RE: seeking intern

Hello. The Church of Euthanasia is a non-profit educational foundation, and is exempt from state and federal tax under IRS 501(c)(3). The Church was described at some length in the "Styles" section of the April 12 Phoenix, but if you need more information I'll be happy to provide it. Here's the text I'd like to run:

Rev. Chris Korda (Church of Euthanasia) seeks intern for desk-bound fun. Various non-paid positions. Move up (and down) the corporate ladder. Young, good chin, 80 WPM preferred. No breeders.

CHURCH OF EUTHANASIA SEEKING INTERNS

August 26, 1997

Boston's largest DADA art group is seeking interns with skills or interests in illustration, theater, video, set design, publishing, performance, and market research. Recognized by the Federal Government as a tax exempt educational foundation, the Church of Euthanasia communicates through DADA; art characterized by fantastic, symbolic, and often formless expression of subconscious matter, and by nihilistic satire. We have appeared on television (Jerry Springer, the Internet Cafe), national radio, and in print (Time, Village Voice, Boston Magazine, Wired, Der Spiegel, and more). We publish a magazine "Snuff It" distributed by Tower Records and others, and have a line of bumper stickers and t-shirts with which we subvert all that is held sacred. Our office, in a former church, is located in Union Square, somerville, and is easily accessible by the MBTA. Get real people, after graduation you will have a hellish job designing ad campaigns for anal wart remover or some equivalently odious task. Contact Reverend Chris Korda: tel 617-***-****, fax 617-776-8592 or coe@netcom.com

Hi Ira. Apologies for the confusion, I though I'd save you a phone call and clear things up. The ideal result would be as follows:

250 SAVE THE PLANET
250 EAT PEOPLE NOT ANIMALS

150 THANK YOU FOR NOT BREEDING
150 REAL MEN WEAR SKIRTS
150 GOD IS COMING
150 TEACH MASTURBATION

We're dropping the bottom five sellers altogether: perhaps that makes it possible to double up others, the top three for example? I'm not sure how you do the print runs: are all the buttons on one sheet, 20 up, or are they split across several sheets? Anyway if this is no good, let me know and we'll figure something else out. --Chris

RE: "LAUNDRY SOLUTION"
DATE: 4/25/97
PAGE: 1 OF 3

This fax regards Tradenet's so-called "Laundry Solution," a.k.a. "the laundry ball," which has all the earmarks of a major national pyramid scam. The product consists of a milky-white plastic ball approximately 2.5" in diameter almost completely filled with pale blue liquid. The ball is distributed in a transparent cylindrical container with black end caps, and includes a double-sided one-page promotional brochure which I enclose (hopefully it is readable).

According to the brochure, "'The Laundry Solution' activates your laundry water naturally through a patented process which changes the molecular structure of your water. It forces the dirt to leave the fabric because dirt is positively charged and 'The Laundry Solution' is negatively charged, thus creating an electronic release of dirt." In the "Questions & Answers" section, the brochure goes on to state that the Laundry Solution is "Structured water that emits electro (sic) magnetic waves through the walls of the container into your laundry water." This is of course utter nonsense, to put it politely.

The brochure also answers the question "Is the product patented" by declaring that "The manufacturing process is patented," another sure sign of trouble. The "Laundry Solution" is guaranteed for 1500 loads (all for a mere \$75 suggested retail) and in a clever twist, a reduction in the amount of lint in your dryer is cited as proof of the product's superior cleaning power.

The product is primarily distributed by informal networks of individuals who are susceptible to the pitch. In my opinion, the pitch works best on "new age" types who desperately want to believe that a "21st Century Technology" consumer item can save the world from environmental catastrophe. Distributors are given additional literature which details how much money can be made by persuading others to sell the product, and includes elaborate diagrams of pyramids; unfortunately I do not have copies of these.

Though Tradenet (wisely) chooses not list any contact information in its brochure, there are less cautious individuals distributing the "Laundry Solution" on the Internet. One such is Safenet, and based on my brief conversation with them, I believe you could obtain your very own "Laundry Solution" quite easily, should you desire to do so. Their toll-free number is 1-888-SAFENET, and their mailing address is Safenet International, 380 Main Street, Suite 260, Dunedin, FL 34698. I bring all this to your attention because the "Laundry Solution" is being advertised heavily throughout the Boston area, mostly via brochures and flyers. It seems to me that an investigation, hopefully followed by a

consumer advisory, would be appropriate.

ATTN: LYDIA ECCLES
FROM: CHRIS KORDA
RE: REVOLVING MUSEUM
DATE: 2/03/97
PAGE: 1 OF 1

I'll begin by explaining that I mounted an exhibit of various objects that represent my foundation (the Church of Euthanasia) at the Revolving Museum in November 1996. The exhibit was part of "an evening of difficult art" that Lydia Eccles arranged. As it was originally explained to me, there would be an opening at which Lydia would show her videos, Jay Critchley, Vermin Supreme and others would give presentations, and a band would play. When I asked how long the exhibit would stay up, I was told that it would remain up for approximately one month.

As it turned out, the show was up for three days. Lydia called me on Monday (the opening was the previous Friday) to inform me that when she had stopped by the Museum that morning to pick up her posters, she had discovered that someone had taken objects from the exhibit down and piled them in a corner. I was thunderstruck and asked which objects were removed. She said Brigitte (the doll), Kevorkian's Altar, and the Pedophile Priests for Life had been removed, and recommended I remove the show to protect the objects from further harm. I called the museum, and the response was rather cool. Yes, some objects had been taken down, but they had been put back up, and was it necessary to remove the show? I said it certainly was and that I was coming to remove it immediately. When I arrived, the objects had not been put back up but were indeed lying on the floor in disarray. During the two days it took to remove the show, I made a point of asking everyone who had studio space in the basement—including Giovanni—if they knew what had happened. No one knew, and one person (Jeff) suggested that it was probably "the building management."

Last Saturday night (Feb. 1) I ran into Giovanni at a friend's party in Jamaica Plain. He seemed friendly at first and asked me what the connection was between the Unabomber for President Campaign and the Church of Euthanasia. I answered his question, but not to his satisfaction: "Yes," he said, "but what does any of that have to do with sex?" He went on to say that the objects in the exhibit were "offensive" and "disgusting," and asked what right I had to show such trash. I said that I glad he was so offended by my work, and he said that the world needed less people like me. Right around then a light bulb went off over my head, so I asked him if he was the one who took the work down. He replied "Yes, I took it down, I didn't want that trash on my wall." I pointed out that his studio was on the other side of the wall, and said "I built that wall and I paid for it, that's my wall." He then added that "everyone else [who had studios] in the basement agreed with me that the show was total shit, garbage, and wanted it down."

I asked him for the names, and he listed Jeff Smith, David Schuster, and Ken. I asked him who appointed him to be the Revolving Museum's censor, and told him I didn't spend a week putting the show together so he could throw it in a corner. He said "You have to spend months putting a show together," and added that I was full of shit, and knew nothing about art. I asked him why he didn't claim responsibility the day after it happened, when I asked him if he knew who took my show down. At first he said it didn't matter because I was an idiot and everyone agreed with him; then he denied that I had ever asked him. I told him I hoped someone took one of his shows down someday, and left the party in a rage.

After hearing about Saturday's incident, Lydia asked me to come to tonight's board meeting, which as understand it will concern the future of the Museum and specifically the use of the basement as a gallery. I seems to me that Revolving Museum should not advertise itself as a gallery of any kind until it can guarantee the safety of the art it exhibits. I also feel strongly that the Museum owes me a formal apology, along with some assurance that Giovanni's behavior will not be repeated.

RE: NATIONALISM
DATE: 8/29/98
PAGE: 1 OF 1

Hello Marcus. Boston is okay, but I'm a little bit disoriented. Maybe I was away for too long.

Lester's girlfriend Sonja has persuaded me that modern Germany is a place where nationalism will never be possible again. In her view, Germany serves as a permanent example of what can go wrong with nationalism. Almost all the other nations of the world condemned Germany's form of nationalism, and, according to Sonja, an entire generation of Germans grew up ashamed of being German. Sonja believes this attitude of shame is the reason why the Church of Euthanasia's message has been well-received in Germany. It is only a small step from anti-nationalism (being ashamed of your country) to anti-humanism (being ashamed of your species).

Anti-humanism is what the Church of Euthanasia is all about. The crematorium is a universal symbol of shame, and in our photos the symbol is modified (I am obviously alive and fully conscious in the photos) to suggest suicide rather than genocide. I can't think of a more appropriate symbol for the Church of Euthanasia. To shed further light on this and many other subjects, I will of our course send you some Church material, on Monday. In the meantime, you can tell your friends that I'm a Hungarian Jew (this is true), and an expert on euthanasia.

The town "Seven Valleys" is not listed on my map of Pennsylvania, which makes things difficult. If you can find out what part of Pennsylvania it's in, or better yet, what the nearest big city is, I can use the telephone directory system to find it.

Well, that's it for now. I hope you're well, and I look forward to receiving the photos, which will be extremely popular here.

Yours,

Chris

Kaixo Angela,

Por fin he encontrado algo de tiempo para escribir cartas. Una por lo menos. Primero, unas palbritas sobre la carta que me mandaste hace mucho tiempo... ? Te he agradecido por la cinta de Mission Hispana? Si no, muchisimas gracias, lo pongo muchisimo, y me encanta. Me diciste que la grabaste de una cinta mandado a ti y al Jasepi por Kristina, y que estabais bastante preocupadas por ella, habais oido algo nuevo de ella? esta bien? Espero que si. Cuéntame algo.

Y tu, como se va la vida maja. Parece que estas muy contenta con el Euskera y con el Barnetegi. Que bien... Me gustaria hacer mas con el casellano, pero ese parece que hay que esperar un poco mas tiempo. Ahora mismo estoy en un trabajo de 8-4 y estoy sentado casi todo el tiempo. Creo que mi culo esta "quadrandose" por estar en una silla tanto tiempo. La cosa buena del trabajo es he guardado algo de dinero y he aprendido algo de ordenadores. Mas de las programmas que "todo el mundo usa" que de como escribir las programmas. Y lo mejor es que solo tengo 9 dias mas en aquello trabajo. Cogere un mes entero para mi en Mayo. La sincronizacion de todo esta perfecto. Tendre 2 semanas libres aqui en Boston (que por cierto hace buen tiempo, por fin) para hacer todo que me apetece, y luego me voy a California a ver mis padres y amigas Durante 10 dias. Cuando vuelvo tengo que buscar un piso y un trabajo nuevo. Estare ocupada de cosas hasta Julio. Eso es el futuro inmediato.

Lo de las ultimas semanas y ahora mismo, no he tenido mucho tiempo solo para mi, pero estoy haciendo algunas cosas nuevas y estoy contenta con el ritmo de la vida. No ha pasado mucho desde no se cuando, pero tampoco estoy buscando la gran fiesta que noexiste y nunca llegaras jamas. entiendes? creo que aprendi esta leccion en Gasteiz, durante mi temporada alli. Sigo saliendo con el mismo chico, y ultimamente hemos estado juntos bastante. Es una relacion suave, quiero decir que ha pasado mucha gente a traves de mi vida, 80% de los relaciones que han tenido elementos sexuales yo he pasado algo de el tiempo algo estresada. Ya me conoces y igual todo eso es redundante, pero ,la cosa es que ahora no lo hago y estoy tranqui con el. La cosa es que ahora mismito estoy en su casa y el esta sentado a mi lado leyendo lo que escribo y esta intentando traducirlo asi hay que escribir de eso un poquito mas luego.

Sigo con la ceramica, aunque todavia no he hecho algo que me encanta, estoy aprendiendo poco a poco. Me encanta estar con el barro hasta las tetas, so to speak. Quiero hacer un escurrido, y cosas un poco mas grandes, paciencia. paciencia y practica. Tambien sigo con el gimnasio, pero como hace buen tiempo ahora, espero traer eso por fura de los edeficios, y estar con la natura algo mas. Eso es lo que echo de menos (fisicamente) de Euskal Herria, las mantannas al lado de mi casa, casi en mi jardin!! ?sabes?

Bueno, tengo que acabar con esta cartita porque es un poco dificil

pensar y escribir con mi amigo hablando, literamente, en mi oreja. El esta haciendo mogollon de llamadas para un manifestacion que haremos en Mayo. Acabare con la carta esta noche. Vale? un beso muy fuerte.

Hello Naughty! How are you? I tried to send this last week but I guess it didn't work so I try again.

My plane tickets are here: I'll arrive in Munich at 8:05am on Thursday, December 3. Joseph will pick me up at the airport and take me to the train station, and from there I'll travel to Ulm.

I'm bringing everything with me except three items: a VGA monitor, a PC keyboard, and a European-to-American power converter. Will you be able to provide these three items? If not, let me know, and I'll start asking around in Munich.

Some other important questions: how many inputs does your mixer have? We won't need more than sixteen. Also do you have any way of bouncing tracks, to a MIDI recorder for instance? I ask this because in some cases I have three or four parts playing on a synth that only has two outputs, so it's not possible to isolate the sounds unless (1) we bounce some of the parts or (2) I bring two of the same synth (it's possible, but Lufthansa won't like it).

I'll call you in a few hours.

Yours,

-Chrissy

Hi Mark. I found the piece of paper with the quotes on it, which I enclose. As far as I can tell it looks like this:

1500 PIECES

PAPER (\$167 X 8 PAGES)	1336.00
PLATES	80.00
SCANS	120.00
BINDERY	255.00

TOTAL	1791.00	(\$1.19 PER PIECE)
-------	---------	--------------------

2400 DPI PLATES: EXTRA \$180 BRINGS IT TO \$1871 (\$1.25 PER PIECE)

BINDERY:

COLLATING \$12.50 X 6 (?)	75.00
STAPLING	90.00
FOLD	45.00
TRIMMING	45.00

TOTAL	255.00
-------	--------

The only major change is that we're doing seven pages instead of eight, which presumably affects the paper cost by \$167 but not much else, getting it down to \$1624 (or \$1705 hi-res).

So, the question is, 2400 or 1200, and what does a print run of 2000 instead of 1500 do to the price? Obviously the paper cost goes up again. More on this tomorrow, see you then.

Chris

RE: PSAs

Hi Paul. Sorry about the rambling message there, sometimes my jaw just starts flapping and I can't stop it. I've tried glue, staples, nothing seems to work. Anyway, here's my proposed text for the CoE PSA sheet, to be inserted in the "review" copies of SI3 tomorrow:

TAX DEDUCTION

The Church of Euthanasia is exempt from federal income tax under sections 501(a) and 501(c)(3) of the Internal Revenue Code. If you run one of these PSAs in your publication, you can deduct the value of the space it occupies from your federal income tax as a charitable contribution! All you have to do is (1) send us a copy of the issue the PSA appears in, and (2) enclose a note specifying the dollar value of the space. Also enclose your advertising rate sheet if you have one. We'll send you a letter confirming the amount of your donation.* Run as many as you like, as often as you like, but be sure to us each issue.

*We are in **no way** responsible for the accuracy or legality of your tax return. The IRS may oblige you to prove that the amounts you declared were reasonable, so use your standard rates. **We reserve the right to adjust any amount deemed excessive.**

Hi Paul. I'll try reaching you by fax here. I could be wrong, but I'm under the impression that both the CoE and my personal tax return are now overdue. If so, it happened because I had no idea you would be gone for so long (I left a message right around the time you left apparently). I guess we need to communicate more to avoid this type of thing. So what happens now? Massive fines? Prison? Pick up the soap? Flame-throwing tanks? I'm leaving for Germany on the 15th of August. Should I not come back?

Running scared,

Dear John,

We haven't heard from you in a while, so I thought I'd send you an update. We picked up some reps at the Sationary Show, and sales are better than ever. We're approaching the 100,000 mark on stickers, and shirts are selling, at Tower Records and elsewhere. The dust has finally settled, and we now have a consistent "top ten" stickers:

1. SAVE THE PLANET--KILL YOURSELF
2. THE POLICE ARE YOUR FRIENDS
3. TEACH MASTURBATION
4. I LIKE TO WATCH
5. GOD IS COMING--STICK OUT YOUR TONGUE
6. DRIVING DRUNK? TAKE OFF YOUR SEAT BELT
7. THE WORLD IS MY ASHTRAY
8. HONK IF YOU NEED AN ABORTION
9. REAL MEN WEAR SKIRTS
10. GOT MINE--UP YOURS

All of these stickers have some "edge." They address current issues in humorous ways, and are guaranteed to annoy parents. I am sure they would work well at Spencer Gifts. I hope that SAVE THE PLANET--KILL YOURSELF is still selling for you, and I look forward to hearing from you soon.

Chris Korda

P.S. We also have a new "political" sticker coming out this month:

DIE YUPPIE SPERM! REV. CHRIS KORDA'S CHURCH OF EUTHANASIA TO
CONDUCT SPERM DIE-IN AT LOCAL FERTILITY CLINIC

The Church of Euthanasia, led by Reverend Chrissie Korda, kicks off an awareness campaign this Saturday, May 3rd, from 11:30 to 2:00, at the -----Fertility Clinic in Kenmore Square. The clinic is directly opposite -----. "Our aim is to decry the antisocial industry of banking and distributing sperm at a time when population growth threatens species survival. Merchants of Sperm must be held to public account. While the church is non-violent, we will not hesitate to openly slaughter sperm in front of the clinic. Such actions will not be regarded as cannibalism, despite the church pillar advocating cannibalism, because we do not regard sperm as "unborn children". The history of immaculate conception is a sorry one." Prior church demonstrations have targeted Pro-Extinction Operation Rescue ("eat a queer fetus for Jesus!") in front of abortion clinics. The Church of Euthanasia is vehemently Pro-Abortion, but in a major policy shift, board of directors voted to switch to targetting pro-fertility organizations. "Sentimental preoccupations with motherhood must be exposed as self-indulgent and inherently chauvinistic," state Pastor Kim, vice president of the Board..

The Church of Euthanasia and Christian fundamentalists share an opposition to artifical fertility practices, but such groups have not yet endorsed the Church of Euthanasia demonstration. Pedophile Priests for Life oppose the action, citing the shortage of altar boys.

The Church of Euthanasia cites gains in membership, sparked by a recent feature in Germany's Der Spiegel. "Our effort, to succeed, must be international. European television crews will be on the scene, so we will make sure that our communications efforts will cross any language barriers."

FOR IMMEDIATE RELEASE
APRIL 24, 1997

DIE YUPPIE SPERM!

CHURCH OF EUTHANASIA WILL LEAD SPERM DIE-IN AT FERTILITY CLINIC

The Church of Euthanasia, led by Rev. Chris Korda, will kick off their anti-fertility campaign on Saturday, May 3, from 11:00AM to 1:00PM, at New England Cryogenics in Kenmore Square. The clinic is a few doors up from Pizzeria Uno, at 665 Beacon Street. According to Church founder Rev. Chris Korda, "the action will send a clear message that frozen sperm and eggs in sperm banks are as offensive to us as dead fetuses and abortion clinics are to the Christians. Sperm banks are a symbol of unchecked human population growth and they must be shut down." The Church will demand that the sperm be defrosted and released, and if their demands are not met they will resort to "extreme measures," including openly slaughtering sperm.

The anti-fertility campaign reflects a major policy shift for the Church. Last year the Church used shocking tactics--including a crucified blow-up doll that gave birth and banners such as "EAT A QUEER FETUS FOR JESUS"--to drive Christian protesters away from abortion clinics. This year the Church seeks to soothe troubled waters by finding common ground with Christians. Despite their zeal for procreation, many Christians oppose the new reproductive technologies, which they consider unnatural. A number of Christian organizations have been invited to the May 3 event, including the Pro-Life office of the Boston Archdiocese. Pedophile Priests for Life oppose the action, citing the shortage of altar boys.

Exponential human population growth has resulted in massive species extinction due to destruction of habitat, release of toxins, and climate change. Population expert Paul Erlich estimates that one third of the species on earth have already perished. On the positive side, the Church of Euthanasia reports a surge in offshore membership, sparked by extensive international media coverage including a recent feature in Germany's *Der Spiegel*. A European television crew will be on the scene May 3, and the Church will surpass its reputation for graphic props to ensure that the message transcends language barriers.

FOR IMMEDIATE RELEASE

SPERM BANK TRAFFICKING IN FETAL TISSUE
Series of vigils planned

The Boston Fertility Task Force will hold a vigil outside New England Cryogenics (665 Beacon Street in Kenmore Square) on Saturday, May 3 between 11:00AM and 1:00PM. New England Cryogenics sells human fetal tissue obtained from abortions, in addition to trafficking in human eggs and sperm. The fetal tissue is primarily used in medical experiments, though there is demand for it in the cosmetics industry as well. Signs protesting the sperm bank's callous disregard for unborn children will be made available. The vigil will be repeated until the sale of fetal tissue is halted.

The widespread acceptance of fertility treatments has divided the Christian community. Many Christians support the new reproductive technologies because they permit infertile couples to bring children into the world. This is understandable, particularly while fertility doctors hide the less charitable aspects of their business. When fertility drugs are administered, for example, multiple pregnancies result, one or more of which are routinely "weeded out." How many Christians would continue their support if they knew this?

Many fertility doctors are engaged in bizarre research, including male pregnancy, cloning of humans, and animal-human hybrids. Sex selection is commonplace, and often results in the termination of human life. When doctors decide which embryos are fit to live, are they not playing God? When sterilization becomes mandatory, and stables of surrogate mothers bear the children of the wealthy, are we not serving Satan?

The Boston Fertility Task Force was founded in 1995 to help formulate Christian policy on reproductive technologies, and respond to obvious abuses. Trafficking in fetal tissue is exactly the type of abuse we try to prevent, but we can't do it without your support. Please come to the vigil on May 3 and pray with us for an end to this blasphemy.

CHURCH OF EUTHANASIA ON JERRY SPRINGER
TALK SHOW RETREATS FROM ARMY OF GOD

The Church of Euthanasia will appear on the Jerry Springer show titled "I Want to Join a Suicide Cult," to be aired ??????day July ??, but viewers won't see the real story. The show was originally titled "Suicide Cannibal Cult and God's Army," and pitted the Euthanists against the Georgia-based Creator's Rights Party, which appears to be a political front for the Christian militia known as the Army of God. The CRP is calling for a Christian militia to seize Georgia's nuclear weapons, which would be used to enforce secession if the federal government rejects their demands, which include bans on abortion and "homosexual perversion."

In a June ?? AP story titled "Atlanta blast tied to two others," the Olympic Park bombing was "connected to explosions at an Atlanta gay nightclub and an abortion clinic" by a letter "denouncing 'sodomites' and those who commit 'ungodly preversion.'" The CRP has attracted the attention of the FBI and BATF, not only because their nuclear secession rhetoric borders on sedition, but also because of their links to Mike Bray, who served 46 months for a conspiracy to bomb ten abortion clinics in the Virginia/Maryland area. Bray was scheduled to appear on the Springer show with CRP leader Neal Horsley, but an hour before the taping, the Euthanists were informed by producer Chris Rantamaki that "a decision had been made to de-emphasize the Christians" and that Bray would be in the audience, though his wife Jane would remain on the panel.

Over a period of several months, Rantamaki had urged the Church of Euthanasia to confront the CRP with their violent anti-homosexual agenda. "Whatever you do, don't let them back down on arresting faggots and nuclear secession," said Rantamaki in a conversation with Church founder Rev. Chris Korda. The Church did confront the CRP with their agenda on the show, but Jerry appeared to be caught by surprise, and tried to change the subject instead of backing up the allegations with excerpts from the CRP's web site as promised.

The confusion was increased by outrageous stunts, many of which won't be aired, such as Church PR director Vermin X squirting Horsley in the face with a penis-shaped water pistol. After repeated requests to "be a man and remove your mask," Vermin unzipped his fly to reveal an enormous dildo. The show came to a halt as Rev. Korda dropped to her knees and performed fellatio.

The Church of Euthanasia will appear on the Jerry Springer show titled "I Want to Join a Suicide Cult," to be aired August 11, but viewers won't see the real story. The show pits the Euthanists against the Georgia-based Creator's Rights Party, which appears to be a political front for the fundamentalist terrorist group known as the Army of God. The CRP is calling for a Christian militia to seize Georgia's nuclear weapons, which would be used to enforce secession if the federal government rejects their demands, which include bans on abortion and "homosexual perversion."

In a June 10 AP story titled "Atlanta blast tied to two others," the Olympic Park bombing was "connected to explosions at an Atlanta gay nightclub and an abortion clinic" by a letter "denouncing 'sodomites' and those who commit 'ungodly preversion.'" Bray was scheduled to appear on the Springer show with CRP leader Neal Horsley, but an hour before the taping he decided to remain in the audience.

The Church confronted the CRP with their violent anti-homosexual agenda, exposed Bray's conspiracy conviction, and presented evidence linking both Horsley and Bray to domestic terrorism, including the Army of God bombings. Though the show was provided with extensive documentation well in advance, Springer was caught by surprise, and tried to change the subject instead of backing up the allegations with excerpts from the CRP's web site. Horsley seemed unable to respond, and instead claimed he had been "set up" by the Church of Euthanasia.

FOR IMMEDIATE RELEASE
JUNE 9, 1997

CHURCH OF EUTHANASIA TO FACE CHRISTIANS ON SPRINGER SHOW

The Church of Euthanasia will be taped for the Jerry Springer show on Thursday June 12 at 11:00am. The Church will face off against the Creator's Rights Party (CRP), a Georgia-based fundamentalist christian group that advocates "arresting faggots" as a necessary step in the restoration of "God's plan for government." CRP leader Neal Horsely has called for a christian militia to seize Georgia's nuclear weapons, which would then be used to enforce secession should the federal government reject the CRP's demands, which include bans on abortion and "homosexual perversion."

The Church of Euthanasia advocates restoring balance between Humans and the remaining species on Earth through voluntary population reduction, and actively supports the right-to-die, pro-abortion, animal rights and sexual pleasure movements. Their DADA-inspired tactics and vociferous opposition to the Christian pro-fertility cults led to spectacular confrontations in front of abortion clinics last year. Founded by Rev. Chris Korda in 1992, the Boston-based Church now has hundreds of members nationwide, each of whom has taken a lifetime vow to not procreate.

The CRP ran afoul of the FBI last week, in part because their pro-nuclear secession rhetoric is seditious, but also because of their links to Mike Bray, an anti-abortion activist who has been jailed for repeatedly vandalising abortion clinics. Bray will appear on the Springer show, with his wife, who has nine children.

According to Rev. Korda, the CRP is going to be "utterly humiliated, on national television. Euthanism is about the survival of the earth, sexual civil rights and the absolutely sacred right of every woman to control life and death within her body. The Christians don't care what happens on Earth because they think they're going to heaven. We do care, and we're going to demonstrate that very, very graphically."

Hello Stefan.

The negotiations are over. The Hell/Richie version of "Fleshdance" will be on the CD as a "bonus track", and on the vinyl also. The DAT tape I sent you contains four versions of "Fleshdance". Hell prefers the third version. **IMPORTANT!** The second track did not generate a new start-ID. Therefore the third version is track #2 on the DAT.

I enclose the agreed-upon track listings for both the CD and the vinyl. The CD track listing is exactly the same as the CDRs you sent to Disko-B, but with the "bonus track" added at the end.

I tried to keep the lengths to a minimum on the vinyl. The longest side is 14:35. If this is unacceptable, tell me, and we'll figure something else out.

I will call tomorrow. Thanks again for sending me the extra CDRs.

Regards,

Chris

Hello Stephan. It was good to talk with you today.

Here is my address:

CHRIS KORDA
**** STREET
SOMERVILLE, MA 02143
USA

So the plan is to send a listening copy to Hell "without", and both listening and real-time copies to me "with". This way "all bases are covered," as we say here.

Perhaps it's just the influence of the planets...

Regards and hello also to Barbara,

Chris

FOR IMMEDIATE RELEASE
SEPTEMBER 29, 1997

DISORDERLY CLOWN GOES TO TRIAL

Vermin Love Supreme, mandatory toothbrushing activist and clown, goes to trial, Tuesday Sep. 30, at Boston Municipal Court, 9:30 am, room 371, on charges of disorderly conduct. The charges stem from a demonstration at the grand opening of Niketown in Boston's fashionable Newbury street shopping district on July 19, 1997. Love Supreme, under the delusion of free speech, refused to cooperate with police when requested to "move across the street to the designated protest area." He was then forcibly escorted across the street and arrested for disorderly conduct. Though Nike, best known for its ubiquitous "swoosh" logo and sweatshop labor practices, refused to press "trespass" charges, the Commonwealth of Massachusetts continued to press disorderly charges, in spite of the statute (c272.s53) which clearly states that "disorderly is defined by an act that served no legitimate purpose of the defendant." Political free speech is generally considered to be a "legitimate purpose." Supporters and spectators are welcome at the trial. For more information, call Free the Clown, (508) 546-1688.
